## Introduction

The Registry of Friendly Societies (RFS) is a statutory office of the Department of Jobs, Enterprise and Innovation.

The Registry of Friendly Societies deals with three different entity types, namely Industrial and Provident Societies which in the main consist of co-operatives; Friendly Societies; and Trade Unions which include employee unions, employer associations and trade associations.

The principal legislation governing these entities is:

- Industrial and Provident Societies Acts, 1893 – 1978.
- Friendly Societies Acts, 1896 – 1977.
- Trade Union Acts, 1871 – 1990.

### Statement of Strategy

The Mission Statement of the Registry of Friendly Societies is:

*“To ensure that the various mutual entities registered at the Registry, which are subject to general regulation and supervision in varying degrees by the Registrar of Friendly Societies, comply with their statutory obligations and to maintain an up to date public record on those entities”.*

This mission statement is accomplished through two core objectives, namely:

- The efficient and effective registration and general regulation of Industrial and Provident Societies, Friendly Societies and Trade Unions.
- The provision of an efficient and effective service to the public.

## 2011 Overview

At the end of 2011, there were 1,061 Industrial and Provident Societies, 47 Friendly Societies and 54 Trade Unions on the register, making for a combined total of 1,162 registered entities. As such 2011 saw an overall reduction of 13 in the number of societies/trade unions on the register compared to the end of 2010.

The charts below show the ratio of Industrial and Provident Societies, Friendly Societies and Trade Unions on the register at 31 December 2011, and over the years 2002-2011.

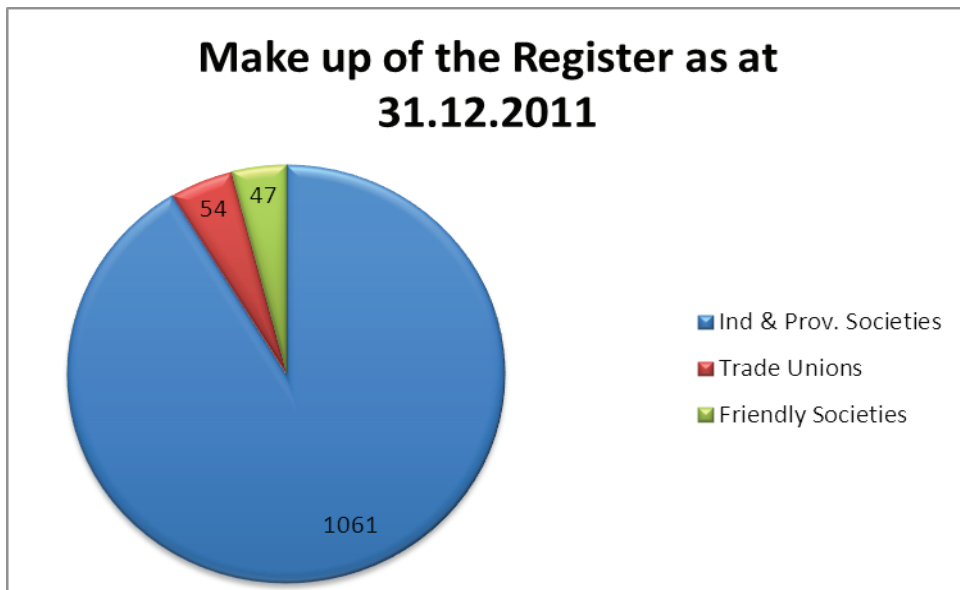

Fig. 1: Ratio of I&P Societies, Friendly Societies and Trade Unions at end 2011.

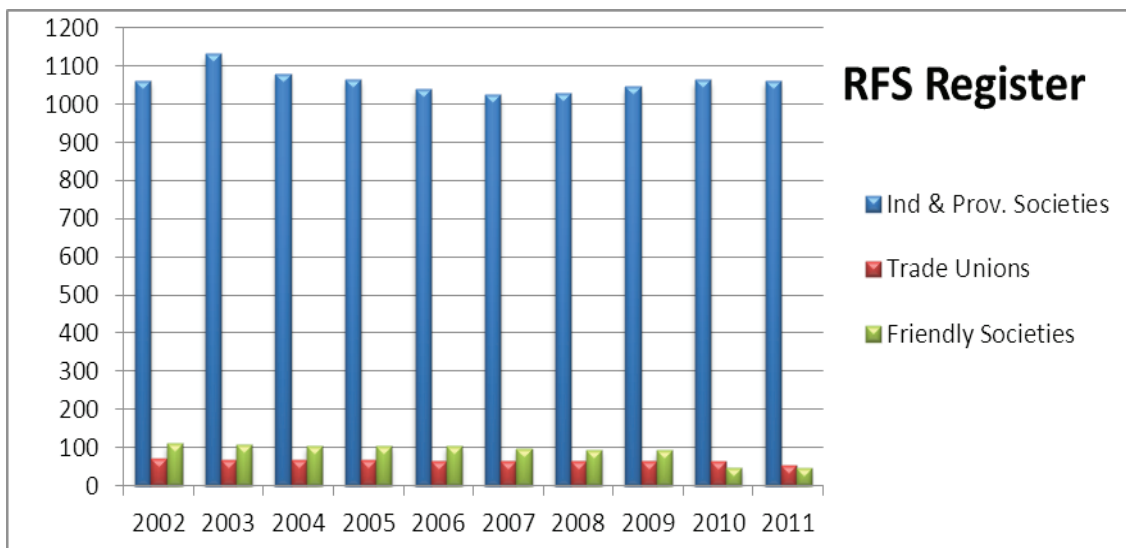

Fig. 2: Ratio of I&P Societies, Friendly Societies and Trade Unions 2002-2011.

The fluctuation in number each year is as a result of new Acknowledgements of Registry, Restorations, and Cancellations including cancellation following Conversion to Company, Amalgamation, Transfer of Engagements, Dissolution and Liquidation.

Details of the various registrations completed during 2011 are set out in the following pages of this report.

There are additional matters which a registered society or trade union must register or record in addition to sending annual returns and accounts to the Registrar, and these matters include:

- partial and complete rule amendments/alterations,
- changes of name and registered office,
- special resolutions.

Details of each of the above matters are also included in this report.

The RFS customer service targets regarding processing applications and making documents available to the public range from five to ten working days in respect of correctly completed applications, and are dependent on the nature of the application involved.

The RFS collaborates with the Companies Registration Office (CRO) with regard to making information available to the public online, and to this end general information and prescribed forms pertaining to Industrial and Provident Societies, Friendly Societies, and Trade Unions are available on the CRO website at [www.cro.ie](http://www.cro.ie). During 2011, technical work continued in preparation for making public filed documents, including annual returns, available online via the CRO website. In this regard, it is expected that online access to public documents will be rolled out during 2012 which will ultimately allow members of the public to view and check the status of societies and trade unions, and purchase registered documents, via the CRO website.

Access to public records for inspection and/or purchase copies of registered documents is also facilitated through the public enquiries counter in the CRO at Parnell House, 14 Parnell Square, Dublin 1 during the hours 9.30 to 13.00 and 14.15 to 16.30 Monday to Friday.

During 2011, fees received in the Registry amounted to €98,000, compared to €110,000 for 2010.

The Registry engaged throughout the year with stakeholders and the Department of Jobs, Enterprise and Innovation (Co-Operative Legislation Unit) in relation to matters of common interest and issues of policy concerning societies and trade unions.

### **Industrial and Provident Societies**

During the year under review, the Registry registered sixteen new societies and two further societies were restored to the register. A number of existing societies amended their rules either partially or completely during the year and a total of twenty societies were cancelled either at their own request or by instrument of dissolution. During 2011, a liquidator was appointed in respect of one society.

## **Friendly Societies**

During 2011, two new friendly societies were registered and a further two societies were restored to the register following application to the High Court.

A number of societies had partial amendments to rules registered during the year.

One friendly society was cancelled during the year at its own request, one following dissolution, while the Registrar cancelled three societies for failure to file annual returns, two of which had initially been suspended for failing to file annual returns with the Registrar.

## **Trade Unions**

During 2011, the RFS undertook a review of trade unions which had failed to file annual returns with the Registrar. The review involved a targeted enforcement campaign resulting in a number of trade unions having their certificate of registry cancelled for failure to submit annual returns. The consequence of cancellation of the certificate of registry is that the trade union absolutely ceases to enjoy as such the privileges of a registered trade union, but without prejudice to any liability actually incurred. In respect of those trade unions which had a negotiation licence, cancellation of the certificate of registry also meant that the negotiation licence ceased to have effect.

In advance of cancellation of the certificate of registry, each trade union was afforded time to file outstanding annual returns and given an opportunity to show cause as to why they should not be cancelled.

On foot of the review and targeted enforcement campaign, nine trade unions were cancelled for failure to submit annual returns.

One trade union was cancelled at its own request, and a further trade union was cancelled following dissolution.

A number of trade unions had a partial alteration of rules registered during the year.

## **Electronic Register of Societies and Trade Unions**

In last years' annual report the RFS reported that it had embarked on a project to make all public documents available on-line. Work continued on this project throughout 2011 and considerable technical progress has been made which will culminate in a phased roll-out of public documentation being available for inspection and purchase on the CRO website [www.cro.ie](http://www.cro.ie) during 2012.

## Overview of Energy usage in 2011 – S.I. 542 of 2009

S.I. 542 of 2009 requires public sector organisations to report annually on their energy usage and actions taken to reduce consumption.

At the end of 2011 the Registry of Friendly Societies had a staffing complement of six, with certain staffing positions also having responsibilities and core functions in the CRO, including the Registrar of Companies who is also the Registrar of Friendly Societies. The RFS shares accommodation and many administration services including energy consumption with the CRO at its Parnell Square, Dublin location.

Details of energy usage, including actions taken in 2011 and actions planned in 2012 are as follows:

### Overview of Energy Usage in 2011

The CRO is located in Parnell House, Dublin and O'Brien Road, Carlow. The CRO is the main energy user of Parnell House (67%) and shares the building along with a canteen, 3 meeting rooms, toilets and the reception area with the RFS and the Competition Authority. CRO Carlow is the minor energy user of O'Brien Road (33%) and shares the building with the National Employment Rights Authority while also sharing canteen facilities, toilets and the reception area. The Energy Team in Parnell House were recognised by **Optimising Power @ Work** initiative in 2010 and the building was awarded runner-up in the **Best Performing Building – Air Conditioned Buildings category**.

In 2011, the CRO/RFS (Dublin & Carlow) consumed 756.15MWh of energy, consisting of:

- 371.66MWh of electricity;
- 384.49MWh of fossil fuels, with natural gas being the only fossil fuel used.
- The CRO currently does not use any renewable fuels.
- CO2 emissions: 277,597.56kg

This energy consumption can be broken down by location:

Dublin – 673.90MWh of energy consisting of:

- 319.67MWh of electricity;
- 354.23MWh of fossil fuels, with natural gas being the only fossil fuel used.

Carlow – 82.25MWh of energy consisting of:

- 51.99MWh of electricity;
- 30.26MWh of fossil fuels, with natural gas being the only fossil fuel used.

### **Actions Undertaken in 2011**

- Over two hundred 4w 'low energy' LED light bulbs & additional motion sensors fitted (Parnell House).
- Energy Awareness Presentations provided to staff (both locations).
- Energy Saving related emails to staff reminding everyone to turn off PC monitors, printers etc. each evening (both locations).
- Monthly 'No-Lift Days' (Parnell House).
- Out of Hours energy Audits (Parnell House).
- Air Handling Unit operating hours significantly reduced (Parnell House).
- Heating timers regularly programmed in line with current weather conditions (both locations).

It is not possible to give specific figures of energy saving for any of the above actions, but overall, energy savings of 15% were achieved in both locations when compared to 2010. The problem of gas consumption in Carlow was resolved in 2010 and produced a massive reduction of over 53% in 2011.

### **Actions Planned for 2012**

- Study to be carried out on the possible replacement of the single glazed windows in Parnell House.
- New Energy Awareness Posters to be displayed around the building (both locations).
- Presentations to staff (both locations).
- Installation of BMS System to monitor/control heating system in the building (both locations).
- Out of Hours energy Audits (both locations).

It is thought that carrying out Energy Awareness campaigns can lead to overall savings of between 5-10%. By using BMS systems this will allow both offices to manage energy usage remotely and efficiently and should show savings going forward.

### **Warrant of Authorisation**

During 2011 the following persons were authorised pursuant to the Friendly Societies Acts to exercise and perform the powers, functions and duties of the Registry of Friendly Societies:

Ms Helen Dixon, Registrar of Friendly Societies.

Mr William Reid, Assistant Registrar of Friendly Societies.
